Index to Volume 64

Abe, K., 1–15
ABH, 567–585
ABO, 567–585, 683–704, 855–867, 903–917
 *ABO*A*, 417–434
 *ABO*A2*, 903–917
 *ABO*O*, 417–434
aborigines. *See* Ami tribe; Australian aborigines
abortion, 855–867
accidents, death rates from, 199–213, 785–789
acid phosphatase (ACP), 479–495, 683–704, 855–867
ACP. *See* acid phosphatase
Acta Anthropologica Sinica, 567–585
Acta Genetica Sinica, 567–585
ADA. *See* adenosine deaminase
adenosine deaminase (ADA), 479–495, 855–867
adenylate kinase (AK), 175–186, 479–495
adoption study, 99–106
adult T-cell leukemia/lymphoma (ATLL), 843–854
advantageous gene, 67–80
Aeta. *See* Koreans
Africa, 303–336, 361–379, 381–402, 403–416, 497–521, 587–603, 843–854, 891–901
African-European admixture, 35–49
Afrikaners, 649–657
Afro-Caribbeans, 587–603
agarose gels, 17–24, 141–159, 403–416, 587–603, 641–648, 757–761, 891–901
Age
 and blood pressure, 869–889
 and disease, 337–360, 807–819
 and mortality rates, 199–213
 and skin color, 35–49
 -specific fertility rates, 497–521
Agencia Espanola de Cooperacion Iberoamericana (AICI), 361–379
agriculture, 303–336, 361–379
Ahoms, 187–197
AHSG. *See* alpha-2-H5 glycoprotein
AICI. *See* Agencia Espanola de Cooperacion Iberoamericana
AIDS (acquired immune deficiency syndrome), 741–755
Ainu, 161–166
AK. *See* adenylate kinase
Alaska, 271–279, 337–360, 381–402
ALB-GC-DBP, 1–15
Alberta (Canada), 115–119, 167–174
albinism, 67–80, 649–657, 855–867
albumin–vitamin D binding protein gene complexes, 1–15
Alciati, G., 81–87
alcohol intake, 807–819, 869–889
Aleut-Eskimo (linguistic phylum), 271–279
Algerians, 107–113
Allan, J.L., 167–174
alleles, 1–15, 67–80, 605–616, 617–621, 641–648
 deficiency, 587–603
 E locus, 81–87
 frequency distributions, 1–15, 141–159, 417–434, 479–495, 567–585, 683–704, 891–901, 903–917
 *GM*23*, 17–24
 HLA A3, 649–657
 RH, 417–434, 567–585
 skin color, 35–49
Allison, A.C., 187–197
Allison, M.J., 361–379
allogenotype analysis, 17–24
allotypes
 GM, 17–24, 381–402, 567–585
 immunoglobulin, 271–279, 381–402, 567–585

allotypes (cont.)
KM1, 17–24, 567–585
Alper, C.A., 587–603
alpha hemoglobin, 891–901
alpha-1-antitrypsin, protease inhibitor *(PI), 587–603*
alpha-thalassemia, 903–917
alpha-2-H5 glycoprotein (AHSG), 587–603
Alu I, 403–416
"*Alu* Insertion Polymorphism: A New Type of Marker for Human Population Studies," 641–648
Alu interspersed repeats, 641–648
Amante, A., 81–87
Amazonian basin, 271–279
"American Indian Prehistory as Written in the Mitochondrial DNA: A Review," 403–416
American Museum, 435–461
American Philosophical Society, 435–461
Amerind (linguistic phylum), 271–279
Amerindian populations, 361–379, *531–538, 649–657, 683–704. See also* Special Issue on the Biological Anthropology of New World Populations
amino acids, 1–15, 187–197, 605–616, 855–867
